# Southern Grampians (S)

Southern Grampians Shire is located about 290 kilometres west of Melbourne, centred on the town of Hamilton. The Shire has experienced a decline in population since 2001, and growth to 2022 is projected to be below average. People aged 25 to 44 are underrepresented in the population, while residents aged 45 plus are overrepresented. Southern Grampians has low levels of cultural diversity and high levels of volunteering. Southern Grampians scores close to the Victorian average on most economic indicators with low unemployment, and below average rental and mortgage stress. The proportion who are overweight or obese is third highest in the state. The rate of chronic ambulatory care sensitive conditions is high, while the rate of vaccine preventable ACSCs is low. The rates of childhood immunisation and breast and bowel cancer screening are above average. The percentage of persons aged 75 plus living alone is the highest of all LGAs, the rates of HACC clients are higher than average, and there are nearly three times as many registered mental health clients per 1,000 population as the state average. Rates of intentional and unintentional injuries are above average, as are avoidable deaths. The per annum increase in hospital inpatient separations has been slow since 2001-02 and is projected to remain lower than average through to 2021-22. The proportion of inpatient separations in private hospitals is well below average. GP attendances are much lower than average, while emergency department presentations (including primary care type) are above average.
