Survey

The Wimmera and South West Area Integrated Family Violence Partnership have undertaken to carry out a significant piece of work that will give us a detailed picture of how the service system across the Wimmera and South West is currently responding (Inc. barriers and enablers) to individuals who have been impacted by Family Violence and sexual assault - with the aim of helping us to inform service system design and implementation in this current reform environment. **This mapping is for all agencies who either directly OR indirectly come into contact with individuals who have been impacted by Family Violence and Sexual Assault.**

The Understanding our Service System Project: Wimmera and South West Area Integrated Family Violence Partnership is seeking **your input** via a **survey** about the family violence and sexual assault service system – primarily about response but include prevention work as best you can. The survey takes about 15 minutes.

As a consequence of feedback from the sector, the Survey Monkey deadline for this Project has been extended from the 15 March until the **29 March** to allow sufficient time for frontline staff and managers enough time to respond.
